Blood Endowment Fund Report/Request - Davis County Library

In May of 2018 the Davis County Library came to Blood Endowment Board and requested \$50,000 to expand the electronic collections of the Davis County Library, with the majority of the funds to be spent in the children's e-resource collections. These materials are part of the fastest growing collection in the library system.

The Endowment Board graciously approved this request.

Report on Awarded Blood Endowment Funds

Because of the special nature of the request, there were some challenges presented in the implementation:

- The emphasis of the request focused mostly on children's materials with some young adult titles added. No adult titles were considered.
- Many available eBook titles are listed by the book's publisher as "metered access." Simply stated, these are titles that are either active for a certain number of checkouts, or a prescribed period of time (such as 12 or 24 months) and occasionally both. At the end of this period of time or checkouts, the title is deactivated (think "worn out" or "broken" in a print context) and the library must purchase the title again.

Some examples:

- Simon and Schuster titles are valid for 12 months from the purchase date--not the activation date. This includes books from popular grade school authors as Shannon Messenger, Sharon M. Draper, and Stuart Gibbs.
- Random House, Penguin, and Scholastic titles can be checked out for 24 months. These include series like the Magic Tree House or the A to Z Mysteries.
- HarperCollins titles can be purchased for 26 checkouts (no time limit). C.S. Lewis's Narnia series, Lincoln Peirce's Big Nate, and E. B. White's Charlotte's Web are examples.
- Other publishers using exclusive metered access eBooks include Disney and Tommy Nelson.
- This includes all printed formats including picture books, easy readers, and board books.

As a result, no metered access titles were considered as a part of this request. The library only wanted to purchase titles that would be in the Blood Endowment Collection on a permanent basis.

As a further note:

- Most eAudio titles are considered "one copy, one user." This means that all titles are purchased outright and do not expire. However, this also means that only one user can use a copy at a time, leading to potentially long waiting periods.

- None of the endowment money was spent on items that had holds. The goal was to purchase new titles so that the selection would continue to increase. Of course once purchased, these items could potentially be placed on hold thereafter.
- Because these are electronic items and stored on the cloud off-site, the price of these titles is usually 25-50% more than the list price of the same title in print.
- An advantage to purchasing electronic formatted material is that the item is available when it is ordered--no need to wait for shipping and with non-metered titles they don't wear out or expire but are in the collection permanently.

Report of what was spent

A thorough account of what was spent is attached to this report. Any questions regarding titles selected can be referred to Matt Goff, Collection Development Manager.

2019 Blood Endowment Request

For 2019, the Davis County Library would like to make a smaller request from the Blood Endowment Board of \$35,000. As the children's collection at Kaysville continues to be one of the most heavily used collections in the building the emphasis of this year's request will be on purchasing children's and young adult print titles (picture books, hardbacks, paperback, easy readers, board books, and books on compact disc). This will allow the library to replace some well-loved titles as well as increase what is available on the shelves for children to choose from. As always, these items will be marked with a special spine label acknowledging the generosity of the Alan and Kay Blood Endowment Fund which makes these special purchases possible. These titles will also be searchable through the library website and at each branch on the electronic catalog.

SUBJECT/AGENDA TITLE: A RESOLUTION ACCEPTING THE INTERLOCAL COOPERATION TRANSPORTATION PROJECT REIMBURSEMENT AGREEMENT BETWEEN KAYSVILLE CITY AND DAVIS COUNTY FOR THE AWARD OF GRANT FUNDING FOR THE KAYSVILLE WILDERNESS PARK.

EXECUTIVE SUMMARY:

Kaysville City applied for and has been awarded funding from Davis County for installation of a bridge structure in the Kaysville Wilderness Park along the Bonneville Shoreline Trail.

Working with local residents and business owners representing different interests such as hiking and mountain biking, the City identified a location where a new bridge structure would greatly improve the experience of the trail and make access to the Bonneville Shoreline Trail more inviting to a broader array of users of different ages and abilities.

This project comes on the heels of other trail improvements for which the city has previously received grant funding which will lead to a ravine formed by a creek running through the north edge of the Wilderness Park. At this point the new grant monies would be used to help construct a bridge spanning roughly 60 feet. The total project is estimated at \$120,000. Davis County has awarded \$84,000.00 to Kaysville City which will be given as reimbursement for costs above and beyond the City's contribution of \$36,000.00.

The Parties irrevocably submit to the exclusive jurisdiction and exclusive venue of the courts located in the State of Utah as set forth directly above. Anyone who unsuccessfully challenges the enforceability of this clause shall reimburse the prevailing Party for its attorneys' fees, and the Party prevailing in any such dispute shall be awarded its attorneys' fees.

19. Severability. If any part or provision of this Agreement is found to be invalid, prohibited, or unenforceable in any jurisdiction, such part or provision of this Agreement shall, as to such jurisdiction only, be inoperative, null and void to the extent of such invalidity, prohibition, or unenforceability without invalidating the remaining parts or provisions hereof, and any such invalidity, prohibition, or unenforceability in any jurisdiction shall not invalidate or render inoperative, null or void such part or provision in any other jurisdiction. Those parts or provisions of this Agreement, which are not invalid, prohibited, or unenforceable, shall remain in full force and effect.

Re: Prop One Application

Mr. Oyler,

The Bonneville Shoreline Trail segment through the Kaysville Wilderness Park is an important segment of this key regional trail as it is one of most accessible from a trailhead. Currently this section of trail is also problematic, particularly for mountain bikers as the trail crosses a ravine that currently requires going down and back out on steep grade and sharp switchbacks.

Kaysville City is seeking Prop One funding from Davis County in order to build a bridge over this section of the trail in order to make the route more attractive to a larger number of users including bikers and families. The bridge not only makes for an easier route, but creates a very scenic point along the trail as it overlooks several cascades in the review below.

The cost estimate for a new 60 foot pre-fabricated bridge structure and installation is \$120,000. \$91,150 for the structure and an estimated \$28,850 for construction/installation. Kaysville City is seeking \$84,000 in Prop One funding to purchase and install the bridge. The city will commit \$36,000 to the project to cover the required 30% match.

Your consideration of this application is appreciated.

Breakdown:

Davis County Prop One dollars - \$84,000 (70%)
Kaysville City cash match - \$36,000 (30%)

EXHIBIT B

STAFF REPORT

MEETING DATE: May 16, 2019

ITEM NUMBER:

TYPE OF ITEM: Action

PRESENTED BY: Community Development Staff

SUBJECT/AGENDA TITLE: Rezone of 0.91 acres of property at 372 West Burton Lane from R-A (Residential Agriculture) to the R-1-20 (Single Family Residential) zoning district.

EXECUTIVE SUMMARY:

The applicants' property is located on the north side of Burton Lane west of I-15. The property is just shy of an acre. The applicant has request a change from the R-A to the R-1-20 zone in order to allow for a potential lot split.

The R-A zoning district requires lots to be a true half an acre in size (21,780 sq. ft.) or larger. Properties in this zoning district do not require a conditional use permit for farm animals. The minimum frontage of a standard lot is 100 feet.

The requested R-1-20 zone allows for lots of 20,000 sq. ft. in size or larger with only 90 feet of frontage required on a standard lot.

The most likely development of a 2nd lot on this property would be by way of a Flag Lot. This would require further verification through a subdivision process to ensure needed lot size, frontage, and setbacks. It also requires the PRUD overlay zone which would give the city discretion in approving such a subdivision.

As a rezone is a legislative decision, the City Council has broad discretion in their decision making and can decide to approve or deny the request based on how well the requested zone works at the subject location and how it fits with the City's General Plan.

The City's **General Plan** states, among other things:

Identity and Character:

Kaysville should be primarily a residential community with a vision to promote business, industry and public use.

Housing:

A. Housing should be located throughout the City and restricted only where it is incompatible with other necessary uses.

1. West of I-15, allow zero to two units per acre with some higher density housing along the major streets.

B. The majority of the housing should be one unit per structure (single unit).

About ten percent (10%) of the housing should be more than one unit per structure (multiple unit). Multiple unit housing should consist mostly of duplexes (two unit structures) and some three to six unit structures

dispersed throughout the City.

C. Housing development should have a minimum of through vehicular traffic and a maximum of open space.

D. Housing developments should essentially pay for themselves.

While the rezone of the property does not create any nonconforming issues for the existing lot, the ability to subdivide the property will require verification of a survey that there is sufficient acreage or square footage to meet the minimum requirements of the R-1-20 zoning district. Additionally review of this subdivision request has identified right-of-way that could be vacated along the far west end of Burton Lane that would add more than the needed square footage for two lots in the R-1-20 zoning district should the city be inclined to pursue process to vacate a portion of the right of way to the abutting property owners.

COUNCIL OPTIONS: Approve, Deny, or Table for more information.

RECOMMENDED OPTIONS: The Planning Commission held a public hearing on the item and voted unanimously to recommend approval of the requested rezone.
